

Forever Chasing Rainbows

Verse 1

I grew up believing fairy tales can come true
Imagining my fantasies would come to my rescue,
But I realized the truth the older I grew
Life looks better from a different point of view.

Chorus

I'm forever chasing rainbows
I'm always searching high and low
I'm forever chasing rainbows,
Looking for my pot of gold.

Verse 2

I tried to make my life conform to my dreams,
But the older you get, the harder it seems,
For no matter how you plan or how you scheme
You can't always control the flow of your life stream.

Middle

For as my soul keeps searching for what I believe I want to find
I have to go on living and to keep my peace of mind,
But as I move forward I keep looking back behind
Asking myself time after time, do I already have what I'm trying to find.

Repeat Chorus

I'm forever chasing rainbows
I've been looking long and hard
Will I find the end of my rainbow
Right here in my own backyard.

Will I find the end of my rainbow
Here in my own backyard
That's where they usually are.
