

Junction 35

Verse 1

Well I picked her up at Junction 35
Young thing though she were
Seemed to know quite a lot about life
Unnatural for a girl like her

Verse 2

We sped on down the old roadway
Over straightaways and round the bends
Till she beckoned me to stop the car
And to bring the ride to an end

Middle

She led through the meadow to a place she'd been before
To an old abandoned barn house, once there she latched the door
She bid me lay in silence upon golden bales of hay
To join in love life with her, for brief moments flit away

Instrumental Break

Repeat Middle (Change last line to)

To join in love life with her, then we slept away the day, oh

Verse 3

When I awoke, I searched in vain
Had she taken me for a ride?
My car was gone, so up goes my thumb
Now pick me up on Junction 35
Oh pick a poor boy up at Junction 35
