

No No Never

Would I ever take the chance to leave you for a new romance?

Would I ever, no, no never

Would I ever hurt you love, when you're the only one I ever dream of?

Would I ever, no, no never

Will I, won't I, you ask me constantly

You should know by now it's just you and me

Do I ever cause you doubts, that's something we should live without

Could I ever, no, no never

Will I, won't I, you ask me constantly

You should know by now it's just you and me

Would I ever take the chance to leave you for a new romance?

Would I ever, no, no, never

Would I ever, never!
